work?*

# HOW

*shall we  
study?*

An international panel discussion on  
the future of education, in the context  
of the Vienna Biennale exhibition

*How will we work?*

19 September 2017, 6:30 p.m.

University of Applied Arts Vienna  
Angewandte Innovation Laboratory  
Franz-Josefs-Kai 3, 1010 Wien

It is no longer a question of whether our present **work structures** will be confronted with **radical transformation processes**, we need to discuss how this transformation is taking place, and which **consequences** it will bring. Undisputedly, developments in the fields of **automation, digitalization, artificial intelligence** or further **globalization** will have a significant **impact on labour**: Human workers will particularly be needed for **tasks** that (at least for now) cannot be carried out automatically – requiring competencies like **creativity, unorthodox thinking, innovative networking** between different fields and disciplines, etc.

The panel will focus on the **challenges** higher education is faced with, and discuss what can be done to best prepare future students to become competent members of our **changing society**, and how universities therefore will need to transform themselves.

### Contributors

**Gerald Bast** President of the University of Applied Arts Vienna

**Eve Lewis** Director of SPARQS – Student Partnerships in Quality Scotland

**Hans Pechar** Department of Science Communication and Higher Education Research, University of Klagenfurt

**Bill Price** Speaker of the Council for a Progressive Economy

**Ingeborg Reichle** Head of the Department of Cross-Disciplinary Strategies, University of Applied Arts Vienna

The panel will be chaired by

**Oliver Vettori** (Dean for Accreditation and Quality Management, Vienna University of Economics and Business)
